A strong feeling of autagonism seems to exist between the Virginia Military Institute cadets and the libacksburg boys, which took an unpleasant slope day before yesterday. During the afternoon, because of the disagreeable weather, the review of the Virginia Miniary Institute cadets by the Governor and President Starke and the presentation of a stand of colors to them by the alumin of the institute in the city of Richmond were postpaned.

THE OTHER SIDE. Lieutenant Knight, of the Blacksburg orps, was next called upon. He regretted, e said, to acknowledge that some of the Blacksburg boys had been treated with dis courtesy by the Virginia Military Institute sentinels and he was unable to account for it. All other applicants-white and black, men, women, and children-had been ush-
